OFFERED FOR REVIEW:

1. THE LANGUAGE OF GOD IN THE UNIVERSE, ISBN 0975913107 takes a penetrating look at Sacred Astronomy, the Gospel in the Stars, and their connection to the Bible. When the Zodiac and the Bible are viewed with the allegorical Language that God utilizes to communicate to mankind, the Bible and Star Gospel are shown to be parables on a giant scale. Together, they tell a compelling story with many biblical parallels. The true nature of the Star of Bethlehem that the Magi followed, and the parables found in our Solar System, upon the Earth, and in nature are also examined from a biblical perspective. For more info: <http://www.pillar-of-enoch.com>. For book to review, e-mail: helena@pillar-of-enoch.com.

2. THE LANGUAGE OF GOD IN PROPHECY, ISBN 0975913131 is an explosive new exploration of the parable-like images used in biblical, and extra-biblical prophecies regarding the End Times. Prophecies in Ezekiel, Daniel, the Psalms, Revelation, Ethiopian Enoch, the Great Pyramid, the Great Sphinx, the Mayan Calendar, and the memoirs of George Washington are explored to disclose the End-Time roles of many nations, while dismantling the false doctrines behind British Israelism, and Anti-Semitism. This book also examines the prophetic roles of the United States, the British Commonwealth, and modern Israel, and challenges many incorrect notions about God's vision for the End Times. For more info: <http://www.pillar-of-enoch.com>. For book to review, e-mail: helena@pillar-of-enoch.com.

3. I'm looking for Amazon and bn.com reviewers for my new book, PARENTS' GUIDE TO IQ TESTING AND GIFTED EDUCATION, which has a publication date of September, 2006 and is now active on Amazon.com and bn.com.

This a guide for the millions of parents who need to understand gifted testing and programming so that they can make informed decisions for their children. My book directly answers questions parents ask most such as: How do schools identify gifted kids? Who gets tested and why? What are the signs of giftedness and why should I know? Are IQ scores always accurate? and, Is there a downside to having a high IQ?

The book includes a special section on bright kids with learning problems and lets parents know how to access school support for these children.

This is where parents will find the direct answers and specific advice they need to make the right decisions for their child.

I am especially interested in getting Amazon and bn reviews from parents who have gone through - or are currently going through - the testing process with their own kids.

I'd also love to get reviews from teachers and other educators who may find this book helpful in understanding when to refer kids to gifted ed programs and when consulting with parents who have questions about gifted ed (one primary grade teacher I know keeps the book handy at parent conferences to offer as a reference to parents who have questions about gifted testing and programming).

Please contact me at dave@parentguidebooks.com to request a review copy.
